11	Nguyen Sang Mai	103	22.4	23	100	23	80
12	Hoang Phung	110	22.4	23	100	23	87

Scores in excess of double par have been eliminated from the Adjusted Gross Score (Adj). The Net Score has been computed by subtracting the calculated Handicap from the Adjusted Gross score. In the case of ties, the golfer with the lower handicap has been given preference. Remaining ties have been broken by examining the accumulated net scores after 17 holes. If any ties still existed, net scores were examined after 16 holes, 15 holes, etc, until all ties had been broken. When Handicap Strokes were allocated in computing a net hole score, strokes were allocated in order of precedence using the Handicap Holes as defined in the course database.
